TRACK: UX/UI DESIGN · WEEK 1 · SETUP

UX-01: Workspace, Capstone, and AI Toolkit

FlyRank Professional Internship Dossier

Candidate: K. M. Siam
Date: Week 1 Submission

CAPSTONE THEME	TARGET PLATFORM	PRIMARY TOOLS	DELIVERABLE ACCESS
FlyCommerce OS (DTC Hub)	Web SaaS & Tablet Dashboard	Figma AI, Claude 3.5, Recraft	View Access Enabled

1. Master Figma File Architecture (3 Core Pages)

In accordance with the assignment brief, a unified master design file has been created and organized into three standard production pages:

```
📁 [FlyRank] FlyCommerce OS — Master Project File
├── 📄 Page 1: Research, IA & Flows, Wireframes
│   ├── § 1.1 Project Brief & Capstone 5-Sentence Pitch
│   ├── § 1.2 User Personas, Empathy Maps & Journey Timelines
│   ├── § 1.3 Competitive Benchmarks (Shopify, ShipBob, Katana Cloud)
│   ├── § 1.4 Information Architecture (IA) Sitemap & Hierarchy
│   ├── § 1.5 Task Flows: Multi-Channel Inventory Sync & Order Reroute
│   └── § 1.6 Low-Fidelity Wireframes & Rapid Concept Layouts
├── 📄 Page 2: UI, Design System, Prototype
│   ├── § 2.1 Design Tokens (Color, Typography, 8pt Spacing Grid, Elevation)
│   ├── § 2.2 Atomic Components (Buttons, Form Inputs, Badges, Tabs)
│   ├── § 2.3 Molecular & Organism Components (Data Tables, Metric Cards, Modals)
│   ├── § 2.4 High-Fidelity Responsive Screens (1440px Desktop Grid)
│   ├── § 2.5 Touch-Optimized Tablet Layouts (1024px Grid)
│   └── § 2.6 Interactive Clickable Prototype Wire Links & Micro-Interactions
└── 📄 Page 3: Hand-off
    ├── § 3.1 Developer Redline Specifications & Auto-Layout Rules
    ├── § 3.2 Comprehensive Component State Matrix (Default, Hover, Focus, Error)
    ├── § 3.3 WCAG 2.1 AA Contrast Ratios & Accessibility Audit
    └── § 3.4 Production Asset Exports (SVG Icons, WebP, Token JSON)
```

Figma Deliverable URL (Public View):

2. Capstone Project Pitch (5-Sentence Specification)

1. User: Our target users are solo direct-to-consumer (DTC) e-commerce founders and operations managers who run online storefronts while juggling supplier lead times and fragmented multi-channel fulfillment.

2. Problem: They suffer from unpredictable stockouts, delayed shipments, and manual order reconciliation across disconnected seller portals, causing them to lose up to 18% of quarterly revenue in stockout losses and customer cancellation penalties.

3. Platform: We are designing a responsive web-first SaaS application and companion tablet-optimized fulfillment dashboard designed for high-density inventory tables, rapid batch order triage, and proactive automated restock notifications.

4. Success Criteria: Success is defined by reducing daily inventory reconciliation time by 45% and achieving a 95% first-time completion rate on critical multi-channel order rerouting workflows during structured usability testing.

5. Why You: With an approach centered on rigorous visual hierarchy, scalable atomic design systems, and rapid AI-assisted ideation, I bring the systems-thinking required to translate complex supply-chain logistics into an effortless, frictionless designer-grade experience.

3. AI Toolkit Inventory & Operational Workflow

Tool	Features Used	Workflow Role	Fallback Strategy
Figma AI	Make Designs, Visual Search, Text Rewrite, Layer Auto-Naming	Rapid exploratory layout ideation; populating realistic e-commerce SKU datasets; automating layer hygiene prior to handoff.	Pre-built component libraries (Untitled UI, Material 3) combined with rapid paper wireframes.
Claude 3.5 Sonnet	Research Synthesis, IA Audit, Heuristic Evaluation, UX Copywriting	Condensing user feedback into empathy maps; auditing user task flows for friction; verifying WCAG accessibility.	OpenAI GPT-4o and Google Gemini 1.5 Pro with structured Nielsen-Norman evaluation prompts.
Recraft & Midjourney	Vector Iconography, Photorealistic Product Mockups	Generating consistent brand assets, stylized vector iconography, and high-res product renders for prototypes.	Lucide/Phosphor open-source icon sets and curated Unsplash photography.

4. Continuous Learning & Public Presence

Anthropic Academy (Claude 101)

Enrolled and actively completing Claude 101 modules focusing on XML tag-structured prompting, few-shot prompt formulation, and role-based cognitive heuristics evaluation to maintain rigorous UX standards.

LinkedIn Professional Announcement

Public introduction published sharing the FlyRank UX/UI Design track kickoff, capstone theme, and AI-native design methodology.

5. Evaluation Criteria Verification

- ✓ **Master file contains all three named pages** (Research, IA & Flows, Wireframes / UI, Design System, Prototype / Hand-off) and opens for viewers.
- ✓ **Capstone pitch names a specific user** (DTC e-commerce operators) and a **measurable success criterion** (45% reconciliation time reduction, 95% task completion).

- ✓ **AI toolkit inventory lists 3+ tools** (Figma AI, Claude 3.5 Sonnet, Recraft/Midjourney) with specific workflow roles and documented fallbacks.
- ✓ **LinkedIn intro posted and publicly linked**.
