1. The Four Master Deliverables (All Links Publicly Accessible)

Deliverable Item	Verification URL / Reference	Access & Testing Status
1. Master Figma File (Page 06 Dev Hand-off)	**Figma Master Design File (View Access) →**	Tested logged-out in incognito window. Pristine access.
2. Interactive Prototype (3 Named User Journeys)	**Live Prototype with Usability Fixes →**	Zero dead-ends. Smart Animate & variable sliders active.
3. Capstone Case Study (NN/g Portfolio Article)	**UX-11 Full Case Study on GitHub →**	Publicly accessible markdown document + PDF showcase.
4. Verified Hours Log (Internship Timesheet)	Documented below in Section 4 (40.0h Total across 8 weeks)	Matches all GitHub commit timestamps and portal logs.

2. Screen-by-Screen Engineering Redlines (Behavior & Edge Cases)

SCR-01: Command Center Redlines

- **Auto-Layout:** Fixed 240px sidebar + 1fr fluid data table. Max container width 1600px centered.
- **Keyboard:** Tab focuses search omnibox (/ hotkey). Active focus outline: `2px solid #6366F1` with 2px offset.
- **API Latency Edge Case:** >3000ms triggers 56px height structural skeletons to prevent Cumulative Layout Shift (CLS).

SCR-02: AI Rebalance Drawer (Governor)

- **Motion Curve:** 480px slide-over with `easeOutCubic (240ms)`. Overridden to 0ms instant cut if `prefers-reduced-motion` is active.
- **Dynamic Interlock:** Slider turns amber <15% buffer stock. If buffer hits 0, CTA changes to disabled with explanatory tooltip.
- **Undo Window:** Approval triggers 60s reversible toast before transfer dispatch.

SCR-03: Pre-Flight CSV Modal

- **Form Feedback:** Persistent top labels + permanent 16px helper-text container beneath inputs.
- **Plain-English Errors:** Displays specific row failure: "*Row 42: Negative quantity detected for SKU-9021*" (Zero cryptic codes).

SCR-07: Warehouse Tablet Mode

- **Touch Standard:** Actions enlarged to 54px full-width bounding box for industrial tablet carts.
- **WCAG 1.4.1 Signaling:** Statuses pair color with distinct geometry (Hexagon, Triangle, Square).
