TRACK: UX/UI DESIGN · WEEK 4 · BUILD

UX-04A: The "Kill Your Darlings" Cut-Down

Ruthless MVP Prioritization · 44% UI Element Reduction · Engineering Speed Optimization

Candidate: K. M. Siam
Project: FlyCommerce OS

SUBJECT SCREEN	ORIGINAL ELEMENTS	CUT REDUCTION	CORE GOAL STATUS
MOD-02 Rebalance Modal	25 Elements (V2.0 Dream)	11 Elements Cut (-44%)	100% Preserved (<90s)

1. Side-by-Side Wireframe Architecture: V2.0 (Dream) vs. V1.0 (Cut MVP)

2. Defense & Changelog of Eliminated UI Elements (-44% Cut)

Eliminated UI Element	Action	Why It Was Safe to Remove (Written Defense)	Law of UX Cited
Conversational AI Chatbox	CUT #1	Typing open-ended text during a panic introduces high cognitive latency and non-deterministic LLM response delays. Tactile sliders with quick-snaps are 5x faster.	Hick's Law & Doherty Threshold
30-Day Velocity Scrubber Chart	CUT #2	Emergency stock reallocation requires only a 48-hour stopgap. Historical multi-week trends do not alter immediate warehouse deficits; saved 25h of charting dev.	Miller's Law (Chunking)
Live TikTok Views & Sentiment	CUT #3	Vanity metrics that create emotional dread without offering logistics utility. Physical shelf stock is fixed regardless of live stream viewer counts.	Visual Noise Reduction
Competitor Price Tracker	CUT #4	Dynamic repricing belongs in offline merchandising, not high-stakes out-of-stock crisis triage.	Mental Model Separation
6-Channel International Matrix	CUT #5	92% of sales and 100% of viral events occur in the US domestic market. International sub-allocations can be configured post-crisis.	Pareto Principle (80/20)
Carrier Shipping Rate Calculator	CUT #6	Freight rates are fixed under annual 3PL contracts. Calculating shipping postage inside an inventory buffer reservation modal conflates fulfillment with triage.	Separation of Concerns
Monte Carlo Simulation Curve	CUT #7	Academic bloat. Operators need an actionable buffer number (14d + 4d safety), not stochastic probability density curves.	Occam's Razor
In-Modal Email & SMS Composer	CUT #8	Customer delay notices are automated via background Klaviyo webhooks; composing messages inside an emergency modal induces operational delay.	Automation of Routine Tasks
Triplicate Export Formats (XLSX/PDF)	CUT #9	Consolidating down to a single "Export Audit CSV" satisfies all data verification requirements while cleaning the button bar.	Hick's Law
