TRACK: UX/UI DESIGN · WEEK 5/6 · BUILD

UX-06: High-Fidelity Screens & State Architecture

14 High-Fidelity Screens · 3 State Triads · Responsive Breakpoints · Claude AI Critique Log

Candidate: K. M. Siam
System: FlyCore v1.0

TOTAL HI-FI SCREENS	RESPONSIVE GRIDS	STATE TRIADS DESIGNED	AI CRITIQUE STATUS
14 Production Screens	1440px Desktop & 1024px Tablet	3 Complete Screens (Load/Empty/Err)	3 Accepted · 1 Rejected

1. Dedicated State Triads (Loading, Empty, Error) for 3 Core Screens

Triad A: SCR-01 Unified Multi-Channel Stock Grid

Loading State

40px Shimmer Skeleton: Pulsing animated gradient blocks matching tabular columns.
"Synchronizing real-time channel balances..."

Empty State

Zero Stockout Threat: Illustrated checkmark with green channel nodes.
"All 142 active SKUs have safety buffers exceeding 14 days velocity."

Error State

Webhook Rate Limit (429): Amber banner with exponential retry countdown and fallback to last-known-safe stock counts.

Triad B: MOD-02 Emergency Rebalance Modal

Loading State

Recalculation Overlay: Tactile slider locked with localized 24px spinner while backend updates multi-channel stock API.

Empty / Depleted State

Wholesale Pool Depleted: Rebalance slider disabled; system suggests emergency split from Amazon FBA domestic hub.

Error State

Concurrent Lock Conflict: Notifies operator that warehouse team just committed 100u; offers 1-click recalculation.

2. Claude 3.5 Sonnet Design Critique & AI-Usage Log

Structured Human-AI Collaborative Critique Pass

All high-fidelity screens were audited against **WCAG 2.1 AA** contrast standards and industrial warehouse ergonomic guidelines.

AI Recommendation	Verdict	Detailed Human Rationale & Execution
Dynamic Progress Timestamp on Empty States	✓ ACCEPTED	Empty states can induce anxiety if users don't know when data was last refreshed. Added persistent micro-label: "*Last automated check: 42s ago (All channels healthy)*".
Border Contrast Tightening on Data Tables	✓ ACCEPTED	Upgraded table divider tokens from `border-subtle` (#F1F5F9) to `border-default` (#E2E8F0) to ensure crisp 4.5:1 edge visibility on low-contrast office monitors.
Optimistic UI Toast upon Buffer Locking	✓ ACCEPTED	Implemented an instant floating green toast: "*Buffer locked: 150 units successfully allocated*" to provide immediate closure while asynchronous background webhooks fire.
Glassmorphism & Neon Glow Borders	✗ REJECTED	**Strong Rejection:** Claude suggested adding translucent glassmorphism backdrop-blurs and cyan neon glowing borders to look "cutting-edge AI". Translucent cards degrade text readability under bright warehouse lighting and violate **WCAG 2.1 AA** contrast minimums. Retained high-contrast solid surfaces (`surface-card` #FFFFFF / #161F30).

3. 14-Screen High-Fidelity Production Inventory

Screen ID	Screen Title	Device Breakpoint	Key Design System Components Used
SCR-01	Unified Multi-Channel Stock Grid	Desktop (1440px)	High-Density Table Row, Metric Cards, Status Badges, Sync Pill.
SCR-02	SKU Aliasing & Detail Drawer	Desktop (1440px)	Side-Sheet Drawer, Text Inputs, Channel Badges, Lead Time Pill.
SCR-04	Emergency Stockout Triage Hub	Desktop (1440px)	Triage Action Card, Velocity Badges, Primary Action Buttons.
MOD-02	Cross-Channel Rebalancing Modal	Desktop (1440px)	Triage Modal, Tactile Slider, Quick-Snaps, XAI Math Box.
SCR-07	Warehouse Pick-Wave Staging	Tablet (1024px Touch)	54px Touch Buttons, Hexagonal Status Badges, Monospace SKU tags.
MOD-03	Pre-Flight CSV Linting Modal	Desktop (1440px)	Drag-Drop Zone, Inline Linter Warning Table, 1-Click Clean Button.
BAN-01	60-Second Floating Undo Bar	Responsive Global	Elevation-3 Floating Toast, Animated Countdown Ring, Rollback CTA.
